RESIDENTS OF JOHNSON COUNTY

The following list of names are only of those persons whose names appear on the personal tax duplicate for the townships represented, and the figures opposite represent the value for which each is assessed. The names in the personal list represent the resident tax-payers in the townships. These names are compared with the names reported on the real estate list and where they correspond the number of acres is transferred to the personal list. When no acres are found the name shows only the personal assessment. The amount of real estate shown here does not represent the full amount of real property assessed to the persons, but only that found in the township where the name appears on the personal list. Any property owned in other townships or counties does not appear in this statement, nor does the name of real estate owners who are not represented on the personal tax list appear in this list of names. Only the resident personal tax-payers are given.

a, acres; p, personal; R indicates Rural Free Delivery Route.

THE SHOP THAT ALWAYS FEATURES TRADE-MARKED, ADVERTISED GOODS

Folks nowadays are familiar with the most popular brands of goods.

This information is easily gained from the magazines and newspapers.

We feature such goods because they are easy to sell and because their makers back them with a guarantee.

And the fixed price, which usually prevails, protects you against unscrupulous dealers.

The manufacturer's advertising is an insurance bond of quality.

If you see it advertised—save time by coming directly to our store
